JK

SUMMARY

A self-motivated, innovative & critical thinker; continuously growing knowledge and deeper understanding and demonstrating an unwavering resolve to do whatever must be done to produce the best long-term results, no matter how challenging it may be.

EXPERIENCE

Associate Research Engineer

Aerosence Aerospace

📅 05/2022 - 04/2023 📍 Noida, India

Specialized in building logistic drones.

- Operated and maintained drones for aerial data collection, ensuring mission readiness and equipment uptime.
- Performed pre-flight inspections, risk assessments, and safety protocol implementation to mitigate operational hazards.
- Collaborated with fabrication team to design and implement drone modifications to improve performance and functionality.
- Worked with autopilot systems, including Pixhawk, handling configuration, integration, and field testing.
- Conducted customer demos and field visits across multiple locations in India, including Ladakh, Tawang, Pooh, and Hyderabad

Associate Engineer 1 - (DHS-BD)

Asteria Aerospace Limited

📅 2024 - Present 📍 Gurgaon, India

Asteria Aerospace Ltd. is a full-stack drone technology company providing actionable intelligence from aerial data.

- Led BD Flight Ops support across customer trainings, product demos, and field trials; consistently delivered sessions on schedule with a strong customer satisfaction focus.
- Trained 250+ users (operators, supervisors, and decision-makers) on Asteria UAV/UAS products, mission planning, basic maintenance, and safe operating procedures.
- Planned and executed product performance demonstrations, proof-of-concept, and acceptance trials, effectively showcasing capabilities and documenting outcomes for key stakeholders.
- Supported pre-sales and bid activities by translating operational requirements into demo plans, trial checklists, and technical inputs for proposals.
- Contributed to two major deal conversions: AT-15 (80 units) and 200XT (196 units) through customer engagement, demos, and trial support.

SKILLS

Group Title

Autopilot Integration

VTOL Hybrid UAVs

Mini Surveillance Drones

Firefighting Drone Systems

Tethered Drone Systems

Hexacopter Platforms

Agricultural Drones

Heavy-Lift Multirotor UAV Design

Customer Training

Operator Enablement

Configuration

Pixhawk

EDUCATION

B.TECH , MECHANICAL

SRM University Sonipat, Haryana

📅 2018 - 2022

PROJECTS

Solar inverter

📅 01/2019 - 05/2019 📍 sonipat

developed a solar inverter which gives fast charging using the solar energy.

- What was a successful outcome of your work? (e.g. Raised \$3,000 for the charity)

Agricultural Robot

📅 08/2021 - 12/2021 📍 Sonipat

This robot is capable of doing seeding and fertilization.

- What was a successful outcome of your work? (e.g. Raised \$3,000 for the charity)

EV Car (Major)

📅 01/2021 - 03/2022 📍 sonipat

Convert the old Alto 800 into EV.

- What was a successful outcome of your work? (e.g. Raised \$3,000 for the charity)
